Many people criticize the U.S. Constitution for permitting injustice, but what they weren't taught is that **THE ORIGINAL DRAFTS OF THE U.S. CONSTITUTION** that were prepared by Thomas Jefferson were the premise for the Republicans of the 1860s to fight as the Union Army in the North against the Democrats who fought as the Confederate Army in the South. Regardless of the results of the American Civil War, the original drafts of the U.S. Constitution included that:

- **“All persons shall have full & free liberty of religious opinion; nor shall any be compelled to frequent or maintain any religious institution.”**
- **“No person hereafter coming into this country shall be held in slavery under any pretext whatever.”**
- **"Females shall have equal rights with males.”**
- **“No freeman shall be debarred the use of arms.”**
- **“There shall be no standing army but in time of actual war.”**
- **“All fines and amercements shall be assessed, & terms of imprisonment for contempts & misdemeanors shall be fixed by the verdict of a jury.”**

In CONGRESS, July 4, 1776.

**The unanimous Declaration of the
thirteen united States of America**

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to **assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them,** a decent respect to the opinions of mankind requires that **they should declare the causes which impel them to the separation.**

We hold these truths to be self-evident, that **all men are created equal,** that they are **endowed by their Creator with certain unalienable rights,** that **among these are Life, Liberty** and the pursuit of Happiness. That to secure these rights, **Governments** are instituted among Men, **deriving their just powers from the consent of the governed,** that whenever any Form of Government becomes destructive of these ends, **it is the Right of the People to alter or to abolish it,** and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that **mankind are more disposed to suffer,** while evils are sufferable, **than to right themselves by abolishing the forms to which they are accustomed.** But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute

Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.--Such has been the patient sufferance of these Colonies; and **such is now the necessity which constrains them to alter their former Systems of Government.** The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good. He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures. He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion

from without, and convulsions within.

He has endeavoured to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary powers.

He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.

He has kept among us, in times of peace, Standing Armies without the Consent of our legislatures.

He has affected to render the Military independent of and superior to the Civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:

For Quartering large bodies of armed troops among us:
For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States:

For cutting off our Trade with all parts of the world:

For imposing Taxes on us without our Consent:

For depriving us in many cases, of the benefits of Trial by Jury:

For transporting us beyond Seas to be tried for pretended offenses:

For abolishing the free System of English Laws in a neighbouring Province, establishing therein an

Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies: For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.

He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.

He is at this time transporting large Armies of foreign Mercenaries to complete the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.

He has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A Prince whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people.

Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which, would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

We, therefore, the Representatives of **the United States of America**, in General Congress, **Assembled**, appealing to the **Supreme Judge of the world** for the rectitude of our intentions, do, **in the Name, and by Authority of the good People of these Colonies**, solemnly publish and **declare, That these United Colonies are, and of Right ought to be Free and Independent States**; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they **have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do**. And for the support of this Declaration, **with a firm reliance on the protection of divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor**.

Listed above are the signers of the
Declaration of Independence!

THE BILL OF RIGHTS is a set of rights for individuals and of regulation on government from intruding upon them. It is the first 10 amendments that were made to the country's constitution and took effect in 1791. It is the supreme law of the United States of America and is upheld by the will of it's citizenry.

States have their own constitutions which expand the bill of rights into their own declaration of rights. In the State of Washington, the declaration of rights is listed as the first article and notes that the constitution of the United States is the supreme law of the land.

The logic of not being prey in a predatory world is timeless. Acknowledging these truths to be self evident, the rights of a free people are listed in the nation's constitution as followed:

Amendment I

Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people to peaceably assemble, and to petition the Government for a redress of grievances.

Amendment II

A well regulated Militia, being necessary to the security of a free State, the right of the people to keep

and bear Arms, shall not be infringed.

Amendment III

No Soldier shall, in time of peace be quartered in any house, without the consent of the Owner, nor in time of war, but in a manner to be prescribed by law.

Amendment IV

The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

Amendment V

No person shall be held to answer for a capital, or otherwise infamous crime, unless on the presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the Militia, when in actual service in time of War or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use without just compensation.

Amendment VI

In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of Counsel for his defence.

Amendment VII

In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise re-examined in any Court of the United States, than according to the rules of the common law.

Amendment VIII

Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

Amendment IX

The enumeration in the Constitution , of certain rights, shall not be construed to deny or disparage others retained by the people.

Amendment X

The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

The Power of Acquittal

One Juror can stop tyranny with a “not guilty” vote! He can nullify bad law in any case by “hanging” the Jury! The only power the judge has over the jury is their ignorance! Any Juror can acquit a defendant who’s charged with a crime to nullify the said charge!

“The jury has a right to judge both the law as well as the fact in controversy.” -John Jay, 1st Chief Justice (U.S. Supreme Court), 1789.

“The jury has the right to determine both the law and the facts.” -Samuel Chase, U.S. Supreme Court Justice, 1796, and signer of the unanimous declaration of independence.

“The jury has the power to bring a verdict in the teeth of both law and fact.” -Oliver Wendell Holmes, U.S. Supreme Court Justice, 1902.

“The law itself is on trial quite as much as the cause which is to be decided.” -Harlan F. Stone, 12th Chief Justice (U.S. Supreme Court), 1941.

“The pages of history shine on instances of the jury’s exercise of its prerogative to disregard instructions of the judge . . .” -U.S. vs. Dougherty, 473 F 2nd 1113, 1139, (1972).

“All laws which are repugnant to the Constitution are null and void.” -Marbury vs. Madison, 5 US (2 Cranch) 137, 174, 176, (1803).

“The Jury has an unreviewable and irreversible power . . . to acquit in disregard of the instructions on the law given by trial judge . . .” -U.S. vs. Dougherty, 473 F 2nd 1113, 1139, (1972).

“You have a right to take upon yourselves to judge of both, and to determine the law as well as the fact in controversy.” -State of Georgia vs. Brailsford, et al, 3 Dall. 1)

“Where rights secured by the Constitution are involved, there can be no rule making or legislation which would abrogate them.” -Miranda vs. Arizona, 384 US 436 p. 491.

“An unconstitutional act is not law; it confers no rights; it imposes no duties; affords no protection; it creates no office; it is in legal contemplation, is inoperative as though it had never been passed.” Norton vs. Shelby County, 118 US 425 p. 442.

“No one is bound to obey an unconstitutional law and no courts are bound to enforce it.” 16 Am Jur 2d, Sec 177; late 2d, Sec 256.

The only thing necessary for tyranny to gain a foothold is for men of good conscience to do nothing. ***“The only thing necessary for evil to triumph is for good men to do nothing.” -Edmund Burke 1729-1797***

“I am only one, but I am one. I cannot do everything, but I can do something. What I can do, I should do and, with the help of God, I will do!” -Everett Hale

The second President of the United States, **John Adams**, said that ***“you have rights antecedent to all earthly governments; rights that cannot be repealed or restrained by human laws; rights derived from the Great Legislator of the Universe.”***

Abraham Lincoln, the first Republican President of the United States who famously freed slaves from their present institutions in the 1860s made the following statement:

“The people are the masters of both Congress and courts, not to overthrow the Constitution, but to overthrow the men who pervert it!”

He also said ***“study the Constitution. . .”*** ***“Let it be preached from the pulpit, proclaimed in legislatures, and enforced in courts and justice.”***

“Government is not reason; it is not eloquence, it is a force! Like fire, it is a dangerous servant and a fearful master.” -George Washington

“The truth is like the sun. You can block it out for a time, but it ain’t goin’ away.”
-Elvis Presley

Government is like the sun. Without it there could be no civilization, but with too much, everything will burn.

Justice will be decided in Heaven's Court!

“My people are destroyed for lack of knowledge . . .!” -Hosea 4:6

“Woe to those who decree unjust statutes and to those who continually record unjust decisions, to deprive the needy of justice, and to rob the poor of my people of their rights. . .” -Isaiah 10:1,2

“We must obey God rather than men.” -Acts 5:29

“Necessity is the plea for every infringement of human liberty; it is the argument of tyrants; it is the creed of slaves.” -William Pitt of the British House of Commons.

William Pitt also said “The poorest man may, in his own cottage, bid defiance to all the forces of the Crown. It may be frail, its roof may shake; the wind may blow through it; the storm may enter; the rain may enter; but the King of England may not enter; all his force dares not cross the threshold of the ruined tenement.”

The founders of the American colonies grew cannabis. Cannabis is the plant which produces hemp fiber from it's stalk and marijuana from it's bud (or pod) which protects it's seeds and collects pollen from the male flowers.

Thomas Jefferson who drafted the Declaration of Independence made the following quotes: *“hemp is of first necessity for the wealth and protection of the country.”*

2: *“The new Constitution has secured these [individual rights] in the Executive and Legislative departments: but not in the Judiciary. It should have established trials by the people themselves, that is to say, by jury.”*

3: *“Judges should be withdrawn from the bench whose erroneous biases are leading us to dissolution. It may, indeed, injure them in fame or fortune; but it saves the Republic . . .”*

The liberty tree was printed on the first flag flown by George Washington’s Navy and on the currency of New England throughout the middle of the 18th century (1700s) which is shown on the front cover of this booklet. Search for “The Liberty Flags” on <https://tclaws.org> for more information about this historic flag!

The following picture has been preserved by the Smithsonian as a historical record which depicts the original tea party dumping containers of tea from a British ship in Boston Massachusetts as well as pouring it down the throat of John Malcolm who was a British officer who was in charge of collecting excise tax revenue from citizens. Among these excise taxes was the stamp tax which gave British officials authority to interfere with people’s mail. The stamp act hangs upside down in defiance on the famous **Liberty Tree** where the revolutionaries would rally against the tyranny of the crown!

“All experience hath shewn that mankind are more disposed to suffer . . . than to abolish the forms to which they are accustom.” “A decent respect to the opinions of mankind require that they declare the reasons which impel them to the separation” (of power) ~**Declaration of Independence**

“**To be prepared for war is one of the most effective means of preserving peace.**” -George Washington

SCOURGED FOR NOT TAKING A LICENSE!

Young Christian attorney **Patrick Henry** saw why a jury of peers is so vital to freedom! It was **March 1775** when he rode into the small town of Culpeper, Va. where he found a minister tied to a whipping post in the middle of the town square. His back was bare and bloody. He had been scourged with whips laced with metal. Patrick Henry is quoted as saying: “When they stopped beating him, I could see the bones of his rib cage. I turned to someone and asked what the man had done to deserve a beating such as this.”

The reply given to him was that the Christian minister was one of twelve who were locked in jail because they refused to take a license. Three days later **they scourged him to death.**

This is why the revolutionaries made cruel punishment illegal when they formed America. This was the incident which sparked Christian attorney Patrick Henry to write the famous words which later would become the rallying cry of the Revolution. *“What is it that gentlemen wish? What would they have? Is life so dear, or peace so sweet, as to be purchased at the price of chains and slavery? Forbid it, Almighty God! I know not what course others may take, but as for me, **give me liberty or give me death!**”* Later he made this part of his famous speech at St. John’s Episcopal Church in Williamsburg, Va.

A license is designed to justify punishment for something that wouldn’t ordinarily be a crime!

Self Defense = Self Preservation

Most states, like Washington, have legislation to further solidify **the purpose of the 2nd amendment**. These laws are designed to protect innocent people who use force against others in order to defend themselves or other innocent people from harm or theft from being criminally convicted.

In the state of Washington, **revised code 9A.16.020(3)** outlines that: *“The use, attempt, or offer to use force upon or toward the person of another is not unlawful whenever used by a party about to be injured, or by another lawfully aiding him or her, in preventing or attempting to prevent an offense against his or her person, or a malicious trespass, or other malicious interference with real or personal property lawfully in his or her possession, in case the force is not more than is necessary.”*

RCW 9A.16.030 further clarifies that: *“Homicide is excusable when committed by accident or misfortune in doing any lawful act by lawful means, without criminal negligence, or without any unlawful intent.”*

The logic of not being prey in a predatory world is timeless. The right to defend ourselves and others is a right granted to us by our creator, and always will be!

If we don't hold these truths to be self evident, then why do Americans celebrate independence day?

Americans Are Oppressed!

In the 1990s Bill Clinton funded the police with two thirds of the federal budget to unleash them in mass upon our increasingly unarmed population. He used his military and **the tyrannical ATF**, which was established as an extension of the department of the treasury by Richard Nixon in 1972, to murder the entire family of a patriotic Christian preacher in Waco, Texas in the name of government superiority over the civilian class.

Defense was the people's job, and we yielded our responsibility to police. **The police** defend the parliament (legislature) which authorize them to rob, kidnap and enslave our civilians. They defend the magistrates (judges) who deem themselves the superior rulers of our free citizenry, and they defend the monarchs (executives) who dictate our states and abuse power as chief commanders. They defend themselves and go after our civilian's precious metals (money), medicine and means of defense. They come after our liberty, lives and the lives of our families and communities. They rarely hold themselves accountable to any constitutional law (supreme law).

In the 21st century, if we cross the street without first asking a machine for permission then we will be fined. If we refuse to pay then we will be kidnapped and forced into involuntary servitude (arrested and enslaved). If we resist with force we will be killed. The same goes for not surrendering money to the government which we earn from our labor. Americans gave up freedom for security and have lost both! How are we free or secure when our government will kill us

if we don't give them our hard earned money or if we cross a street without first being granted permission and resist blatant enslavement as an unjust consequence? **It's time for Americans to give up security for freedom!**

We can not deny that our people are totally oppressed when our government taxes all land; claims total ownership of over twelve million acres of wilderness; taxes every person for every dollar that they spend; taxes all estates that are built; taxes all businesses; taxes all services including utility, transport and communication; adds special excise taxes onto everything from syrup, to fish, to fuel; mandates additional fees for registration and license renewals; allows our public debt to ever increase due to the interest included onto the money that's issued to our people by the Federal Reserve; and then on top of all of those excessive fines will rob our civilians at gunpoint for more of their money from what income that they have left in order to fund more tanks and bombs to terrorize the rest of the world in order for the government to continue it's endless expansion of murder and theft, and ultimately killing any and all people who dare oppose being kidnapped and enslaved by blatant robbers and murderers who threaten death upon all who refuse to fund genocide and oppression with their last bits of income that they've earned from their labor. In the midst of this mass extortion, "innocent" people who obey all laws and taxes which are levied upon them are still being **disarmed by their government** and told that they must pay more every year and obey more and more new laws including registration and licensing requirements. **This reality defines oppression!**

Everett Hale said ***“I am only one, but I am one. I cannot do everything, but I can do something. What I can do, I should do and, with the help of God, I will do!”*** Men who do what they know is right even when the risk that’s created is far greater than that if they had remained still and silent know the true meaning of bravery and honor. Hollywood and Satanic culture has taught us to embrace, glamorize and reward sins like laziness and lust, and to condemn what’s honorable as “crazy,” “foolish” and “dangerous.” We’ve forgotten the magic of our eternal reality - that only our bodies are mortal and that no matter what we do or don’t do, nothing has, can or ever will change that reality of mortality. We’ve been taught to abandon our divine purpose - our lineage! What would Jesus who spoke against the oppression and sin of Rome do? Would God have us sacrifice the posterity for our own temporary comforts?

Humans have enslaved themselves and abandon their own right to power which God created them with. Dimethyltryptamine (DMT) is produced in our brains during birth, in near death experiences and when we dream every single night! It’s produced by plants and can be ingested as indigenous shamans have shown in their sacred and traditional ceremonies to connect our conscious minds with the non-physical reality of the spirit world. Our government has banned this. Because this is the natural component that’s produced by the amygdala - the “third eye” - or the center of our brains which neuroscientists attribute most to consciousness - the government is literally **banning our consciousness!** They are openly **dumbing us down with toxins** in our water, air, food, compulsory schooling and **banning mind expanding substances** like Psilocybin,

mescaline, Tetrahydrocannabinol (THC) and Dimethyltryptamine (DMT) in order to hinder our greatest power - conscious sight! This makes us extremely easier to control and herd into our own doom! First we are to serve our ultimate function. We must produce for those who exploit our labor - the government!

We shall always have **the right to appeal to heaven** - to resist blatant evil, oppression and malice that's perpetuated by greedy and sinister human tyrants of this Earth! Tyrants who plead "not guilty" when charged with treason are committing perjury!

We are here to be tested; to prove that we are worthy of Heaven! Will we sacrifice temporary safety and comfort to stand against those who initiate violence upon the non-violent, or will we aid them in their unholy wars where millions of children must suffer? Would God have us stand by as millions of children are killed for greed? Were we given the power of speech to remain silent as our families and neighbors are enslaved or killed for power? Remember when Moses took a stand (**Exodus 2: 11-12**)!

At a minimum, let us speak against the cruel and oppressive nature of income tax! If enough people do then it may be abolished in time. Never surrender our God given power - our most unalienable rights! We are the most powerful species on this Earth, and all men are created equal! It's within our right and within our power to take control of our own destiny! The power of creation and the spirit of life is with us. The magic of time and consciousness is with us. America's founders, the declaration of independence and our constitution is with us. Moses, Jesus and the Bible is with us. Our

ancestors and God is with us! If nothing else, **SPEAK!**
The power is with YOU! The power is with us all!

All who are slain by oppression may become martyrs and one-thousand more will rise so long as those who stand don't forget that, as outlined in the first paragraph of the once infamous declaration of independence which was signed by rebels who were considered the highest class of criminals at the time of it's creation, that it is vital to declare the reasons which impel us to the separation of power so that our actions may be understood by mankind and **no one may lie about our intent!**

We were given the power to save ourselves. Whether or not we do will always be up to us. We have to use our power to initiate and influence! If there is a Heaven and Hell after divine judgement then those who initiate violence will always be the punished, and those who defend against it will be the rewarded. If there is no afterlife then what do we have to lose anyway when death will always be certain? Take a stand for what's right! Take a stand against evil! Take a stand to preserve freedom for our species! Be brave. Live for truth and die with honor. Justice will be decided in heaven's court! At a minimum, **SPEAK** against the cruel and oppressive nature of taxation. Our children ought to be more than slaves! **Defense will always be our most fundamental right!**

Restore the Term

“My Business”

The stars on the American flag represent the 10th Amendment of the U.S. constitution which declares that states may govern their own territories and that the individuals within those states may pursue their own happiness and wealth in freedom. Sadly, it has become impossible to run your own business today without total interference from the government which now dictates how a business is run and demands that all employers, employees and costumers alike all pay their own portion of tax to the government for every transaction. This is merely to enforce that all Americans use the same central currency or else be forced into direct slavery under the 13th amendment for having committed the crime of rebelling against the tax structure which was non-existent in our great grand parent's generation. This strategy of confiscating liberty and property from “rebels” is directly outlined as the 4th plank of communism which means it's absolutely false to claim that there is still “private” business or “free trade” in the U.S. today because the federal government demands that records are kept of all resources and transactions so that they may dictate the business at their leisure. This makes the government the true owners of all businesses in America today!

I-1658 would *repeal excise taxes as the original revolutionaries demanded so that them and their children could forever prosper in freedom! This can be done by means of a majority vote!*

Now, **a century after the Russian revolution** which led to the formation of the Soviet Union, communism is expanding throughout every continent once again. America has long been outspoken against communism, but Americans don't actually understand what communism is. Without the ability to identify an enemy, an enemy cannot be defeated. When the Soviets conquered Russia, they embarked on a quest to purge their land of Christianity and to seize all the lands which belonged to the nation's farmers. The Soviet Union wasn't able to survive under the weight of it's own policy for even 70 years from 1922 to 1991.

Capitalism is now often blamed for the oppression of workers in the United States and around the world, but the population doesn't understand how to define capitalism any more than they are able to identify communism. This creates an obvious division between people who understand what these terms actually mean and people who blindly believe that they understand the pros and cons which the terms are generally associated with. With the education system today, it's extremely rare that children will graduate from public school with any understanding of communism whatsoever despite it's dramatic effects upon the mass populations of the world which have historically crippled the ability for democracy to bring benefit to the masses that it was intended to serve. There's only one way to identify communism and weigh it's benefits against it's downfalls. **The key to understanding lies within what is known as the 10 planks of communism.**

Written by German philosophers Friedrich Engels and Karl Marx, the following is known as the **10 PLANKS OF COMMUNISM** from the Communist Manifesto, Chapter II: Proletarians and Communists.

(1848)

1. Abolition of property in land and application of all rents of land to public purposes.
2. **A heavy progressive or graduated income tax.**
3. **Abolition of all rights of inheritance.**
4. **Confiscation of the property of all emigrants and rebels.**
5. **Centralization of credit in the hands of the state**, by means of a national bank with **state capital and an exclusive monopoly.**
6. **Centralization of the means of communication and transport in the hands of the State.**
7. Extension of **factories and instruments of production owned by the State**; the bringing into cultivation of waste-lands, and the improvement of the soil generally in accordance with a common plan.
8. **Equal liability of all to work.** Establishment of industrial armies, especially for agriculture.
9. **Combination of agriculture with manufacturing industries**; gradual abolition of all the distinction between town and country by a more equable distribution of the populace over the country.
10. Free education for **all children in public schools.** Abolition of children's factory labour in its present form. Combination of education with industrial production.

In the **Holy Bible, Exodus 20: 1-17** outlines God's commandments. All too often, people who claim to follow the wisdom of Jesus's teachings don't acknowledge the basic principles of the final commandments in the Holy Bible. The **9th commandment** says not to bear false witness and the **10th commandment** says not to covet thy neighbor's home. If these basic principles were upheld in our society then there would be no war on medicine, precious metals or weapons and four fifths of our incarcerated population would be free and have an equal opportunity to prosper among common citizens for they never inflicted violence upon their fellow man. Christian congregations are still the largest leaders in charity throughout our nation and the world and their value system which has promoted freedom when followed gave way to the most prosperous nations on Earth. The traditional wisdom has been forsaken, but only with faith in the power of our own congregations can we restore the wisdom that has freed our species from slavery in the past, and may do so again. To fight the oppression of tyranny, we must rejoice and **exempt Church and charity from any tax whatsoever.**

“The five point program for pentagonal revisionism” was publicized in 1988 by Anton Szandor LaVey who created the **Church of Satan** 22 years prior in 1966. It outlines his actual objectives for a mass cultural transformation which were not made as clear in the Satanic Bible. It can be found on the Church’s website:
www.churchofsatan.com

“This is the encapsulated version of the current thrust of Satanic advocacy. So when someone asks you, ‘Well, what do Satanists do?’, you will be qualified to tell him. Each is necessary for Satanic change to take place. When asked what we’re doing, here’s the answer:

1: Stratification.

The point on which all the others ultimately rest.

There can be no more myth of ‘equality’ for all - it only translates to ‘mediocrity’ and supports the weak at the expense of the strong. Water must be allowed to seek its own level without interference from apologists for incompetence. **No one should be protected from the effects of his own stupidity.**

2: Strict taxation of all churches.

If churches were taxed for all their income and property, they’d crumble overnight of their own obsolescence, and the national debt would be wiped out

as quickly. The productive, the creative, the resourceful should be subsidized. So long as the useless and incompetent are getting paid, **they should be heavily taxed.**

3: No tolerance for religious beliefs secularized and incorporated into law and order issues to re-establish 'Lex Talionis' would require a complete overturning of the present injustice system based on Judeo-Christian ideals, where the victim/defender has been made the criminal. Amnesty should be considered for anyone in prison because of his alleged 'influence' upon the actual perpetrator of the crime. Everyone is influenced in what he or she does. Scapegoating has become a way of life, a means of survival for the unfit. As an extension of the Judeo-Christian cop-out of blaming the Devil for everything, criminals can gain leniency, even praise, by placing the blame on a convenient villain. Following the Satanic creed of 'responsibility to the responsible,' **in a Satanic society, everyone must experience the consequences of his own actions—for good or ill.**

4: Development and production of artificial human companions.

The forbidden industry. **An economic godsend which will allow everyone power over someone else. Polite, sophisticated, technologically feasible slavery,** and the most profitable industry since T.V. and the computer.

5: The opportunity for anyone to live within a total environment of his or her choice, with mandatory adherence to the aesthetic and behavioral standards of same.

Privately owned, operated and controlled environments as an alternative to homogenized and polyglot ones. The freedom to insularize oneself within a social milieu of personal well-being. **An opportunity to feel, see, and hear that which is most aesthetically pleasing, without interference from those who would pollute or detract from that option.”**

High Priest Magus Peter H. Gilmore of the Church of Satan notes that “the complete graphic which we now call the Sigil of Baphomet only became associated as the foremost symbol of Satanism in the public and media consciousness after the founding of the Church of Satan and Dr. LaVey’s use of it.” “The Pentagram, which in Gnostic schools is called the Blazing Star, is the sign of intellectual omnipotence and autocracy.”

“The Pentagram with two points in the ascendant represents Satan as the goat of the Sabbath; **when one point is in the ascendant, it is the sign of the Saviour.**” The latter form is also referred to as a pentacle. Formerly, the pentacle is used as a symbolic representation of ascension and the elemental forces of life including water, fire, air, earth and current with spirit as center.

In issue #133 of “The Cloven Hoof” magazine from the Church of Satan, Magistra Blanche Barton notes that ***the job of the Church is to “manifest the dark lord’s will upon this Earth.”***

A world where **all must adhere to what a sadist may decide is “most aesthetically pleasing”** because any interference is not allowed is not conducive to a healthy or productive society. Churches built the best civilizations on Earth by taking care of those who couldn't fully take care of themselves by means of charity and preaches forgiveness for those who make mistakes.

If everybody simply accepted that the Human race is destined for hell and can't save themselves then nobody would try to hold themselves to a high moral standard and civilization will deteriorate because man would no longer achieve greatness with a philosophy that forsakes those who simply make mistakes. Albert Einstein said “anyone who has never made a mistake has never tried anything new.” If people who experiment were all heavily taxed for incompetence or stupidity then civilization would have never evolved! At a minimum, **faith saves our species** on Earth regardless of what happens after death.

Allowing people who knowingly or unknowingly bare the satanic philosophies listed in Lavey's “Five Point Program” will lead our species to be replaced by robots as listed in the fourth point of the program by means of a mass extermination. In a Satanic society, who will have the morals to stop such a dreadful evil? This is why the elites of the world want us **unwittingly trained to accept satanic philosophy** that's been deliberately perpetuated by Hollywood for over sixty years.

Prophecies & Revelations

The Third & Final Strike Against America

Through the cycles of human history, mankind has always been forced to face predators. History repeats endless cycles of violent condemnation of truth as desperation and blind faith in external saviors leads to the tendency for monarchy. Machines already dictate where, when and how human beings should act. A people who no longer look to the stars for guidance or listen to the inner voice of their own intuition will bury themselves in the graves that were dug for them. Mankind's seemingly timeless desperation to have blind faith in external saviors as opposed to believing in their own power to save themselves is what makes our species susceptible to the greatest predators of Earth today. Human beings have been killing their own to enslave populations since the dawn of civilization. Nothing can defeat the evil of mankind but themselves. Their divine power is to realize that their power is divine! **This world belongs to the posterity**, and they are the purpose of our lives!

If you knew that the world is going to end as we know it within a couple of generations because a sadistic and insane death cult has planned to conquer the galaxy at the expense of the majority of the Earth's population, would it make you want to live more for the moment and forget about responsibilities and obligations to embrace your ambitions, desires, passions and lusts, or would it make you want to plan against the people that are conspiring to destroy our world? We still can if we put our minds to it. To succeed would take an evolution of consciousness where people realize that **they've been trained to believe that they're inferior** to government and that government in reality is run by people which are equally as human as them.

Death merchants have taken control of our civilization before our eyes. Their symbol is a skull and crossbones and is also known as the "death's head." It's looming above and around us every day as time continues, waiting to descend upon the innocent. Only if we can remember our eternal power that we've been trained to neglect and disguise, the power which makes us human, will we save the posterity from the endless nightmare which is the disaster that's been created over several generations; the endless vacuum that consumes all in the end; a dark vortex of greed and cruelty.

After over 100 years of being lied to in order to be pulled into war after war by the puppet masters of the Earth, Americans are being prepared to encounter **the third and final strike against their country by the year 2033**. The United States is merely steps away from adopting a similar system as communist China,

the Soviet Union, fascist Italy, Nazi Germany, North Korea, Cambodia or ancient Britain. The list of slave dictatorships that have abused state power is endless, and we're following the model of every one of them going back to the Ming dynasty, ancient Rome and even Egypt. Now Humans have to decide whether to utilize this closing window of opportunity to break free or cast their own species into another **1000 years of endless war and slavery** led by central empire gone wrong.

Having confidence in your own intuition and ability to make your own conclusion about something and to communicate that understanding is something that's too often condemned as arrogance. The masses have been trained to believe that they are inferior to government. They believe that they are too stupid to be worthy of their own opinions or right to express them. This is exactly what the leaders of the modern education system declared was the purpose of that system. They didn't want to produce critically thinking minds which are capable of forming their own conclusions, much less communicating them to the world through art, music, poetry or letters. That was an ambition deemed too humble on the sixth page of the book "The Country School Of To-morrow," written by the GEB in 1913, for the leaders of our modern compulsory education curriculum. The **General Education Board wanted breeds of obedient laborers, not an independent population** who would become scientists, engineers or leaders!

The masses defend the weakening, diseased and collapsing structure of tyranny because they have grown accustomed as slaves to depending on their

masters. This is what compulsory education has brought us. When the education that civilians pay high taxes to enforce is called “free” then there can be no greater indication that **the education is fraudulent** because it’s a system which has inherently created it’s own language that’s separate from English. How can an education system that’s responsible for teaching English be trusted to effectively teach anything else when it has already failed it’s initial goal which is to teach English? “Free education for all children in government schools” is outlined as the tenth plank of communism in the official communist manifesto. We don’t have “free” education yet we claim that this is precisely what’s mandated by means of **a compulsory process that is heavily funded by the labor of hard working civilian citizens** which makes it communist education. **Kids don’t know about communism** because we enforce communist education, not “free” education.

Diet can be the difference between health and sickness, longevity and a swift or miserable fatality. Health or sickness will determine whether or not a person has confidence in their ability to be independent because it can literally determine whether or not they’re able to be independent. **Confidence and health is a vital attribute to the war we face.** The soviet health care system that’s being implemented in the United States is one of the largest expenses in the country which burdens working tax payers and attempts to justify any level of theft from the people of the United States. Because the medical industry has been trained to prescribe profitable drugs rather than effective nutrients to combat health problems, it is up to the people to combat and reverse the majority of

their physical ailments.

Man will weaponize all advanced technologies and President Eisenhower warned the American people that **the military industrial complex could become the nation's greatest threat** if left unchecked by the voting population. If communism succeeds it will erase the judicial branch of government and **a standing army will dictate the nation**. We already see this happening with the phasing out of posse comitatus. **Robots will replace police and doctors** to facilitate the reduction of Earth's Human population unless humans realize in enough time the war their children are up against and organize to collectively resist it.

Credit will be issued to a proletarian slave class by a central group of economic masters. This will dictate who receives goods and how much. The credit will be fixed to **wireless microchips that will be implanted in human's flesh** and directly attached to their most important veins and nerves such as in their spines, wrists and brains. This will make it **impossible to be removed** without advanced surgeons and therefore end the purpose of democracy which was to allow humans a chance to correct past mistakes. By the time they realize that a **satanic and vampiric death cult has tricked the population** into allowing them to control and even fry people's cardiovascular system which is the conductive internal circuit of all mammals, it will be too late to reverse the mistake. The gates of hell will close behind and around civilization after they become conscious of what's been created.

Once again, mankind is faced with the choice to sacrifice freedom for security or to realize that

freedom itself is the only security against the greatest threat of all which we call **slavery** and is thus all that's worth securing. One of Human's most fundamental survival instincts, written into the laws of nature and encoded into the fabric of space, time and our Human genome is curiosity, for we are more than machines! Children that are rewarded for asking questions rather than punished will be free instead of slaves. The only remedy to bring peace, equality, justice and universal rights is to **abstain from punishing children for asking questions**. Knowledge is power and power is inherited by the free, not by slaves.

If the populations can't evolve beyond the pecking order then the vast populations will be as doomed as the poultry that feeds them because their psychology is that of prehistoric dinosaurs. **We've enslaved ourselves since ancient Egypt** but have democracy and open access to information for the first time ever on this scale. Pray that we may evolve and restore our sanity and that to identify our fear may free us of what blinds us. Let us not abandon the only thing that allows us safety and prevalence - Sigh!

The "right" and "left" are just two lanes of a one way road that gives the majority no option to move in the opposite direction. A linear path set to control the outcome of our future. The people have to decide that **their future belongs to them!** Free civilization is running out of time, and everybody's in the same boat as one collective group who all obey the same agencies which rule over all businesses, land, cultivation of crops and circulation of currency. Running to the other side of the boat won't save it from sinking. People

must do their part as individuals to reclaim their humanity once more, declare their right to lead as individuals and to raise their own children, not to simply serve the power hungry central banks as unthinking drones and livestock. **Only a free people have the right to privately conduct their own business** so long as no violence is being perpetuated just as only a free people have the right to do whatever is necessary to end a violent business. It is only the right of a free people to know what their own resources are being used for and to have choice in the matter.

A nation that's been raising it's debt for over a century thinks that it can tax itself out of the poverty that the adoption of communism has brought among it's people. A people who understand that humans are smart enough to build deadly predator drones to keep their enslaved livestock in their pen but don't believe that humans are the greatest predators of Earth, some of whom would sell millions of innocent lives for one trillion dollars in gold, and have done just that.

Everyone's life revolves around the idea of money, but they don't have any idea why the nation is too broke to mint gold or silver and increasingly "unable" to mint copper. Compulsory education didn't teach people every day survival skills, but rather how to obey commands. Students aren't taught in K-12 economics to think about why "one dollar" minted in 2018 costs seventeen Federal Reserve bank notes to purchase!

What this means is that **people are receiving roughly six percent of what they think they're making from their labor** after a minimum tax deduction of one third after state and federal income, retail and excise taxes are applied. The more money you're able to deal with, the lower that percentage gets!

All insurance companies are based on an unsustainable concept which make their business one of gambling and fraud. Because of this, the only real insurance that the people ever had was their own freedoms and a government comprised of publicly elected representatives to control the protective forces of the country's militia on behalf of the citizen's interests. **To force United States citizens to accept a monetary and medical insurance scam** in the 1930s was one of the greatest acts of treason which has crippled the United States of America. He who dominates a nation's cultivation of crops for food, medicine, fuel, clothes and other uses, as well as the circulation of their money and the trade market in which citizens have access to weapons will be the owner of that enslaved nation who's subjects may be forced into total subservience to the power of his command.

Because **government generates it's revenue from the tax that's paid by the private sector** which generates revenue by producing and distributing goods and services, there has to be checks on both sides for a balanced system to survive. In a time of peace, ten percent of the money produced in the nation is enough for the government to provide for it's most essential functions. **Today we're seeing numbers above thirty percent at a minimum being taken from earners of the lowest incomes.** One third of the jobs in the United States are now subsequently government jobs. This is a dramatic increase from what has been seen historically within the United States.

It's not the government's job to "make" jobs.

They already have a job and they're taking more and more from the private sector which is their only source of revenue. It's our neighbors and families. It's our own children! When two thirds of the nation is feeding the other third, but the one third is growing larger and thus needs more as the two thirds which is their only source of revenue becomes smaller and is able to produce less and less by design, it doesn't take a professional mathematician to see that the system is destined to eventually collapse on itself. 70% is the lowest allowable score in the traditional compulsory grading system that we've known for so long. ***If one third of jobs rely on revenue from tax money, and another 7% or more is collected from tax payers by people who don't work, then that means that America has reached a point where less than 60% of the nation is actually generating revenue by means of producing or distributing goods or services! That is a failure by any grading system!***

Isaac Newton's third law of motion states that to every action there is an equal or opposite reaction. Our reign of unconstitutional fury will come back to us like the ripples in a pond after hitting the edge of the bank. After America subverts its own constitution around the world it will be the last to feel the destruction of its own power. As we fight as a nation to maintain the illusion of dominance in the world, the people of the nation are collapsing their own economy, bringing greater poverty among themselves as their wealth is siphoned to the largest weapons dealers and the **central banks which capitalize on the money that they loan our government for our endless wars.** For many decades this bidding has taken place solely between the executive branch and its appointed chairman of the

Federal Reserve bank who took control of the nation's money after the executive commander in chief had signed the act into law in 1913. This was **only three generations back in time** for many millenials who were kids just a decade ago and who's great grandparents were teenagers when **this institution took control over the nation's future** without the direct consent from the people or it's elected congress. It's been the same institution that's been being used ever since it's creation to finance our wars on behalf of public debt with equally no direct consent from the majority of citizens or their elected congress. This debt is created when the Federal Reserve loans us credit that's based on the actual money in their possession which was obtained illegally **after an executive act of treason in 1933** known as executive order 6102 and increasingly due to the never ending interest rates that the people were subsequently forced to accept after that year in which the Federal Deposit Insurance Corporation became a mandated insurer of the nations monetary "loans" which were to be administered by the communist Federal Reserve central bank. This is why the Teresem religion is now surfacing **to turn digital currency and total central control of everything and everyone into the grand project for the new century;** the ultimate prospect of the brave new world; the next step in human evolution and the new religion for the last breed of humans as we've known them for millenniums; the largest death trap ever created for our species. If only we could be so lucky as to be freed by the illusion of death, perhaps we'd have nothing to fear.

Some of the richest people in the world are involved in the new religious death cult that's called

“Tereseem.” They’ve formed with some of the wealthiest foundations of the world to take care of this public debt once and for all. They’ve declared that they’re going to do us a favor and offer us eternal paradise in exchange for our mortal bodies. No more will we have to use our own brains independently to think about resources because what people called money will simply be credit which will be periodically uploaded electronically to micro chips which will be implanted within the wrists, spines, or brains of human beings. They will transmit global positioning information about the subject’s location at any time and will be scanned in order for a person to be permitted any commodities or services. **The Tereseem religion is a dangerous mix of satanism, communism and new age trans-humanism.** They want eugenics on a scale that we’ve never seen in history where the chosen master race is the cyborg. The robot will be more in control than the human. If we don’t act to decentralize the power structure by ridding ourselves of the disease which is over bearing and dictatorial government then there will truly be hell on earth. An unimaginable nightmare with no escape.

If the people ignore the wisdom of the ninth and tenth commandments of the holy bible and allow them to be substituted by a Laveyan Satanic philosophy that justifies mandating that people adhere to fabricated stories which their satanic masters will deem are most aesthetically pleasing then they will die in a world that considers **mass murder to be health-care.** This has already happened in socialist countries like the Soviet Union and Nazi Germany. This is achieved by simply changing the definition of words. To become immortal, for example, you first have to die! It will come with the

mandated government health insurance by 2040.

Germany was the birthing ground of the communist movement which was created by revolutionary socialists a century before the socialist worker's party that identified as Nazis. In the Soviet Union that was formed just one century ago, Churches were burned and Christian land owners were killed. The Union collapsed in less than 70 years after tens of millions of people were systematically killed by means of starvation, sickness and blatant murder in order to keep the population obedient and under control.

The psychology that dominates the world at large is naturally developed by young children and is observed in elementary schools. The first lesson is that if the majority decides that something is correct then it doesn't matter if facts support the majority's argument when deciding that the majority will rule out the minority by means of a general consensus. The second lesson relates to the act of profiting from a conflict or war. Subject "A" can tell subject "B" that subject "C" is planning a war against subject "B" and then subject "A" can tell subject "C" that subject "B" is planning a war against subject "C." The important factor for subject "A" to profit by doing this is to tell both of his subjects that he is on their side in the conflict and will thus loan them resources such as money and weapons. This is precisely how weapons manufacturers and central banks can **profit infinitely by stirring up wars** between nations and funding both sides. Whichever side wins the war will continue to pay interest on the debts owed and take loans to finance their development and defense. Banking and the arms trade are thus two of the most profitable businesses in the world as are the

oil industry and the drug market.

A great misconception is that Americans have profited from the nation's widespread military adventurism. While we've succeeded to capitalize nations that we've destabilized around the world, the **national debt has exploded beyond anything ever recorded** in the nation's history. No longer can one dollar bill be redeemed for a single coin that holds the worth of one dollar. One silver dollar that's minted by the United States in 2019 costs seventeen Federal Reserve dollars to redeem. In the year 1960 their value was equal. After 25 years of warfare in the Indochina region and several decades in the middle east, the **national debt has increased by over five times since the year 1993 and by over seventy six times since the year 1960.** This leaves Americans with approximately sixty-six thousand dollars of debt per citizen in the year 2019. This is why we're told that **we can no longer redeem our bills for real money** and must soon accept a digital currency as a replacement! The Federal Reserve illegally hi-jacked the nations money and now says that America is too broke to pay to have it back! In communist collectivism, if the ship sinks, everybody drowns.

The United Nations was founded after World War II with the same strategy as the former League of Nations which formed after World War I to disarm the people of Europe to protect them from war. This strategy was a proven failure when Hitler took advantage of the vulnerable populations that had surrendered their weapons yet avoided countries like Switzerland which refused to surrender their arms and were thus never conquered by Nazi Germany. Former

President Obama signed the Arms Trade Treaty (ATT) with the United Nations in an agreement to fulfill an agenda that was created by the United Nations to disarm civilians of nations including America. If the United States ratifies this agreement then this **third and final strike against America** will erase all the freedom that was guaranteed by the sovereignty of our people, states and nation.

To deny or disparage innocent American citizens of their 2nd amendment right to bare arms is treason which is the highest class of punishable offenses within the nation's legal system! If more people understand this basic fact then **we will see these unalienable rights upheld** by juries of the people and supreme justices which are elected by the voters! Denying juries to defendants in criminal cases, imposing excessive fines and searching or seizing people's property without warrants that are signed by a judge is treason!

Kitty Werthmann, an Austrian survivor of the holocaust in the second world war, later became a congresswoman of South Dakota and has famously noted that if people would have read the book "Mein Kampf" that was written by Adolf Hitler then Austria would have never voted for Hitler or agreed to surrender their weapons to his regime. Instead, the people were too busy with athletics, cinema and other common forms of entertainment and distraction to read Hitler's famous book before it was too late to heed the warning. The book outlined his real objectives in a similar way as "World Order" written by Henry Kissinger expresses the plans to erase national sovereignty world-wide, or as "The Country School of To-Morrow" written by Frederick Gates expressed the

true purposes of the compulsory education in the United States after the General Education Board was created by John Rockefeller in the year 1902. If people would simply read the literature written by the leaders of the Teresem religion or the leaders of the central banking, education, oil and health-care systems that we have in America, like “Memoirs” written by David Rockefeller which expresses his pride in working against the interests of the American people, then perhaps the citizenry would **heed the warning and prepare the posterity** for the real danger that we face.

The greatest form of inequality and division ever established by mankind is a collective class of subservient proletarians that are deemed inferior to a superior class of ruling masters. It is the purest antithesis to freedom and the opposite of true unity. The Teresem religion is not the solution to the problem of people losing their freedoms or safety. It’s a cult which is preparing to implant microchips in people’s brains which will store and regulate their credit for food, water, shelter, health-care, etc. The radio-frequency identification (RFID) chips allow people to be wirelessly tracked with a global positioning system (GPS). It’s a movement which aims to enslave the human species worldwide in a futuristic Soviet dystopia and replace over 85% of the Human population with robots - likely the greatest nightmare that our species has ever faced.

Robots are already being given equal rights. We will be prepared to adapt with them throughout the 2020s and in the 2030s they are expected to be used as law enforcement and medical assistants for a full scale overthrow by the 2040s. Civilians have a closing

window of time to realize that the predators which have set the death traps to depopulate and conquer the Earth and it's inhabitants are being funded with their own tax money which they work so hard for. We can blindly trust the new satanic cult leaders to communism in hell where the churches that lead in charity are burned to the ground like in the Soviet Union or we can start to communicate about **the deeper issues that the children of this nation are really facing** and take the people's republic back; by the people and for the people.

IN A WORLD WHERE where lies are rewarded and honesty is punished; freedom of speech is censorship of words that are deemed offensive; where freedom of the press is incarceration for reading too many academic journal articles; where freedom of religion is mandated adherence to the supreme ruling authority; where the right to assemble is criminalized as "disturbing the peace;" where the right to bare arms is a right that belongs only to the ruling class; where the right to a trial by jury is denied to citizens in so called "civil" cases where their right to bare arms for defense as a free people is under threat; where the supreme law of the land is overturned by inferior statute codes which are drafted by the legislators in power in order to rob civilians of their fourth and fifth amendment protections; where state's rights is merely the right of a state to comply with federal regulations; where sharing is taking money by means of violent force for ultimate redistribution or confiscation from so called "free" individuals; where justice is the act of forcing healthy people to pay for people's health-care costs who barely eat raw plants, either whole or pureed, but regularly consume sugar and are not elderly or

significantly injured; where caring for the homeless is confiscating their tents as a fine for being poor in the name of “fair housing;” where the bill of rights is the ten planks of communism which grant supreme rights to only the authority of government; where private business and capitalism is strictly and selectively regulated by governmental regulation of all business; where democracy means no choice for civilians who are deemed inferior to the ruling class who will redistribute their resources however they want; where sanity is achieved by prescribing mind numbing narcotics by means of a court order; where biology is the elimination of any recognition of what was formerly known as the female and male genders; where following the wisdom of Jesus Christ’s teachings is to openly advocate for coveting thy neighbor’s home to seize their precious resins, metals or means of defense and ultimately their estate itself; where the collapsing value of the nation’s currency is “economic progress;” where one dollar is equal to seventeen bank notes issued by the federal reserve; where theft is legal and “free” is defined as something with a large price attached; where freedom is slavery, war is peace, and ignorance is truth, freedom is false advertisement and **DEATH WILL BECOME LIFE.**

Immortality is the oldest con in human history.

What’s certain is that the dark plans of the elite will be our children’s worst nightmare if left ignored. A world that may **sustain a balance between having no government and having one which is endlessly expansive** and overly domineering will maintain a stability of freedom, peace and prosperity. A world with a balance between condemnation of artistic expression and mindless absorption of an artist’s

agenda or between forced religious worship and the condemnation of religion will **preserve a world worth living in!** The key to lasting freedom is to decentralize power, thus returning it to individuals whom it rightfully belongs to therefor making them sovereign once more rather than merely slaves of government.

Uniting the Northwestern Territories (Restoring a Sustainable Economy)

How is it that people think about money every day of their lives, are constantly concerned about how much of it they have and never stop working for more of it, but at the exact same time will refuse to think about the value of the dollar which is it's purchasing power that's measured by inflation? Economics is based on the measurement of the purity of a substance, usually precious metals, and their weight. Weights and measures is what all monetary systems are based on, yet it's not taught in the compulsory education curriculum that is forced upon the youth of today.

“High School economics” teaches children to purchase debt from banks by signing up for credit which their institutions can not physically back with real currency. It does not teach children about real money which is based on the measurement of the purity of a substance and it's weight.

To fit one million Federal Reserve bank notes that are fraudulently referred to as “dollars” into a hat would require 10,000 one-hundred “dollar” bills to be stuffed into a hat which is impossible. One can, however, fit an amount of gold into a hat which is

worth 10,000 one-hundred Federal Reserve “dollar” bills, or 1,000,000 Federal Reserve “dollar” bills. When somebody asks the question **“how do you fit one-million dollars into a hat?”** the only honest answer is simply to fill it with gold. One-Billion dollars could fit into a safe if a square of 10 by 10 gold bars were stacked 15 bars high. It would equate to approximately 1.6 billion dollars. This is a basic fact which is not absent in any real study of economics.

A Twenty Dollar gold coin from the year 1924 is worth \$1,400 in 2019 according to the United States Gold Bureau. A person who set aside 715 of these twenty dollar gold coins in 1924 which costed \$14,300 at the time would have over one-million dollars in 2019 for their grand children! **The cost of gold has quadrupled with the national debt since the early 1990s and has increased by over 25 times in just over one century!**

One ounce of silver minted by the United States in 2019 is minted as “One Dollar” but it costs seventeen “Federal Reserve Bank Notes” in order to purchase the coin which is minted by the United States and known as the “Silver Eagle Dollar.” If you purchase the coin directly from the United States Mint then the cost for a “One-Dollar” coin is 47 Federal Reserve “dollars.” These Federal Reserve Bank Notes are also labeled as “One Dollar” on the note which is one of many clear examples of “doublethink” as defined in the novel “1984” as believing two contrary beliefs as the same time. One dollar can not also be seventeen dollars, nor can it be forty-seven dollars! **One multiplied by one equals one, not seventeen or forty-seven when the ministry of truth (the**

government) says that it does. This is blatant false advertisement! Only government can claim legal justification to commit false advertisement and armed robbery. There must be limits set by the people which restrain the level to which government can abuse it's power. **The greatest threat that the posterity will face is the inversion of foreign policy onto domestic territory.**

To solve many of the economic problems that we face in the Northwest Territories, the state's of Montana, Idaho, Oregon, and Washington should fund their state guard seven to ten times more than in the year 2018 instead of selling out our people who love the freedom that this land offers to the federal government and the international corporate conglomerates who only have foreign and out of state interests in mind and heart. Wyoming could join as an oil contributor and Colorado should want their precious metals which were confiscated by Eastern territories as much as the state of Washington. Northern California wants to become the 51st state of Jefferson and could use the support of **the alliance of the Northwest Territories to resist the pressures of California, New York and the District of Columbia.**

The insane level of tyranny that's grown within the United States has left the nation hanging by a thin and weakening strand of freedom from a rope that our ancestors left strong but has been neglected and torn by generations that were indoctrinated by a foreign communist ideology. This is the purpose for the alliance of the Northwest Territories. The land of majestic wonders, with the tallest mountains and trees, where the eagles soar and the water always flows. It's a

land of golden opportunity and the largest diversity of plant and animal life including fish. The final frontier and God's chosen paradise. A land of wealth and security if our people would only realize the opportunity that it offers us!

The way to defeat the tyranny which is encroaching upon the nation from east to west is to create a "liberty highway" of economic prosperity from the boarder of Mexico to Canada where **real U.S. currency could be legally circulated as legal tender instead of only Federal Reserve "Dollars."** If Idaho's congress passes a similar bill as Arizona, Utah and Texas already have, then a force shield against despotism would be developed in order to stimulate, protect and preserve the economies of the mining states which are west of the Rocky Mountains! This liberty highway of economic freedom and wealth would exists similarly to the cannabis market between Washington, Oregon and California except that it would be less regulated and taxed. Northwestern states already have twice as many Libertarians, which are the leading advocates of sustainable monetary policy in the United States today, than other states in the nation. If New Mexico and Washington would join with Idaho, Utah, Arizona and Texas then there would not only be real free trade from border to border **for the first time in over 8 decades, but there would exist a network of power that would connect Northwest Washington to Southeast Florida** because the Southeast has already wanted this type of reform for a long time. This would stop the powers of New York and the District of Columbia from being able to use the Mississippi River to isolate and destroy the American dream which is freedom!

A Testament of U.S. History For Humankind

(Ending the War Against Humanity)

At the turn of the 20th century, William McKinley was assassinated. William McKinley was the last Republican president who fought in the Union Army against the Democrat Confederates which didn't intend on ending the institution of slavery for black Americans. In the original drafts of the U.S. Constitution, it clearly stated in Article 4 that "no person hereafter coming into this country shall be held within the same in slavery under any pretext whatever." It also said that "females shall have equal rights with males" and that "no freeman shall be debarred the use of arms." It was to end forced worship and provide that all justice would be handled by juries of the people! It also provided many other protections for citizens from illegal government overreach. When the final Constitution was adopted it did not include many of the protections that the original drafts contained so it was amended 15 years later in 1791 and became what is known as "the bill of rights." This was **the first proclamation of human rights established** in the United States and clearly stated in the 8th Amendment that cruel punishment and excessive fines were prohibited. These amendments insured that **Americans were never to be debarred the use of arms, the right to property, life or liberty**, and that the right to trial by jury would always be preserved. In other words, justice was to be administered by free people, not a hierarchical state monarch or magistrate.

The fact that slavery continued after the revolution was in clear violation of the original drafts of the U.S. Constitution which Thomas Jefferson prepared, and of the official amendments adopted in the bill of rights. The declaration of independence, also drafted by Thomas Jefferson, clearly obliged the human race to **stand up to tyranny by any means necessary** in order to abolish any government that would become destructive to the goals of the free Americans. Those goals were life, liberty, and the pursuit of happiness.

Ultimately, it was the U.S. Constitution which determined that the institution of slavery which openly persisted for over a half-century after the revolution and had always applied to people from all empires through human history was now a horrific legal contradiction. This was the pretext for the “civil” war in the 1860s. Abraham Lincoln had alternative monetary motives for the war that he declared against the south and was the **first Republican to become a U.S. president**. The Republican party was formed by many members of the Whig party, which was the original revolutionary party that led America to escape the slavery and stranglehold of the European colonies.

The civil war was to keep America in line with its own Constitution! This was not the first time that a war had been waged to reform the Constitution in order to uphold the noble goals that were outlined in its preamble, and won't be the last. This is why the original 10 amendments still exist! They are also the only thing which continue to protect citizens from the institution of slavery, though they mean nothing when our people would consent to their abolition! In the Washington State Constitution's “declaration of rights”

known as Article 1, Section 1 clearly enacts the wisdom of the declaration of independence. It says that governments derive their power from the consent of the governed. This is a timeless fact. So real is this truth that the Russian Empire wouldn't allow it's citizens to read the full text of the declaration of independence for over a century after it's release. It is a document that can not be overlooked. It has the power to change lives and can help **Americans to uphold their most sacred value - Liberty!**

Without liberty, there can be no prosperity. When innocent people are restricted from their unalienable right to prosper in freedom, there is no welfare in any context worth acknowledging. It's simply a tragic misidentification. When innocent people must live in fear every day of a hierarchical superpower that has grown violently tyrannical under every definition, then they have inherently lost their ability to thrive in an environment that insures domestic tranquility. When "smart house" prisons are forced on our people and we're forced as citizens to yield the profits from our businesses so that our own children can be enslaved in these death traps with no alternative, we will not uphold or secure the blessings of liberty or domestic tranquility. Our lives will only grow darker and colder until we are exterminated by the same evil that has plagued our human species for too many thousands of years.

We are being conditioned to accept that the **government will run every aspect of our business** to the point that business owners are employees in their own business and must give major portions of their profit to the people who will manufacture bombs to

drop on countries who have no air force and can't fight back, killing defenseless woman and children. This money is increasingly being used to fund the expansion of nuclear production so that we may use depleted uranium to infect our "enemies" with radiation despite age, gender, or condition of servitude. The masses attempt to justify this by running from the endless paper trails and denying their blatant existence, distracting people with aggressive claims that free people must be debarred the use of arms against the wisdom of the U.S. Constitution and the principles of "liberalism" which are founded on the values of liberty and equality.

In order to end slavery and uphold freedom for American citizens and the human species, it was known that **people must have a sustainable monetary policy**. "Liquidity" is a term which represents an asset's ability to hold its value over time. Our economy was originally designed to sustain itself indefinitely! Precious metals have liquidity because they are extremely durable. Many are also conductive to varying degrees, and some are obviously more durable than others. This is why **gold and silver is mandated by the U.S. Constitution as legal tender**, and thus is illegal to deny or disparage our people of their right to use them as such. To steal these resources from our people and give them to international foreign banks as is outlined in section 2C of EO 6102 was treason! The coinage act of 1792 outlined that copper would also be used as "legal tender" for exchanges and to pay any debts owed. **Gold, silver and copper was the currency of our nation since the time it was founded in a bloody revolution** to secure freedom, peace and prosperity for future generations until the early 1970s

when all **minting of gold and silver was ended after John F. Kennedy's assassination.** In 1982, 97.5% of the copper in pennies was removed and replaced with zinc which was discovered to turn gray and corrode when the copper was removed from the penny in 1943. Without the 2.5% copper coating to protect the zinc from oxidization, pennies that are minted after 1982 are almost worthless. The cutting and diluting of the measurable weight in our nation's money has been to compensate for the inflation that's perpetuated endlessly by the implementation of communism in America which began after William McKinley's assassination.

William McKinley had signed an act to keep our nation's dollar, which was as strong as it had ever been at the time, fixed to gold just before his assassination in 1901. **This led to a historic transfer of power** as Vice President Theodore Roosevelt took office. Many Republicans who voted for McKinley didn't want Theodore to run a second term, but he won the majority vote regardless and helped paved the way for the international bankers to take over the nations money supply. When Woodrow Wilson finally forced citizens to accept a new type of "dollar" which is fixed to an interest rate that incrementally indebts our government and all its citizens by design, a new era of American history was born. This strategy is outlined as plank 5 in chapter 2 of the Communist Manifesto, written by German-born Socialists in 1848. The same year that this new monetary policy was enacted to incrementally cripple the nation's economy and strip the citizens penniless, **a permanent and graduated income tax was imposed for the first time in American history** and is known as the 16th

amendment. Three years later, in 1916, an inheritance tax was imposed, also referred to as a death tax. These types of taxes are outlined as the 2nd and 3rd plank of the Communist Manifesto in its second chapter. Less than 20 years after the third plank was fully enforced in 1916, plank 6 was established by the Communications Act of 1934 which was enforced by Franklin D. Roosevelt.

Utah, Texas, and Arizona have all implemented the appropriate legislation in order to confirm their commitment to the Constitutional clause which mandates that gold and silver be used as legal tender. These states are among the first to challenge the legality of the prohibition of this timeless monetary system in 8 decades since the 1930s, and have all done so within the last decade! When New Mexico, Idaho, and Washington State follow the same model, then there will be a powerful economic highway of liberty from Mexico to Canada which may serve as a force field against tyranny and evil in order to protect western states that want to preserve prosperity and freedom for the future generations. **This will ensure that the children may decide the fate of their own evolution!**

With the exception of the 9th plank due to the industrial revolution, **planks 2-10 of communism have been enforced upon the people of America** since the oil cartel that Theodore Roosevelt helped to nationalize created what was known as the “General Education Board.” This laid the foundation of our modern compulsory education system for over half a century since 1902. This was the year after William McKinley’s assassination! Within less than 12 years

from his murder, and just a half-year before the Federal Reserve was allowed to **hijack our nations money supply in 1913, the Rockefeller foundation was born.** Today, this foundation is in the process of patenting the worlds food and medicine, and waiting for the authority to nationalize a soviet health-care system which will be enforced upon our human race to euthanize them in the beds that they're paying tax for.

The Food and Drug Act was passed in 1906 by Rockefeller's partner in crime, Theodore Roosevelt, and was used to establish the "Food and Drug Administration" to regulate the means of production as outlined in the 7th plank of the Communist Manifesto. This is the organization that is set to approve any patent that their master monopolists demand belongs to them, even if it should be the Human genome! This shifted the stock market and was the primary cause for 3 week protests on wall street known as **the panic of 1907.** It was organized by rich investors and bankers who wanted an easy bail out when the people began holding their money rather than giving it to trust companies who depend on giving loans to profit. This staged protest is used as the historic justification for the Federal Reserve's establishment and everything which has followed. Franklin Roosevelt who took power less than 20 years after it's establishment & used the FDA in 1938 to force agricultural production under one central authority after openly nationalizing communication to regulate the world's economy as he ordered the forceful distribution of America's gold to the international banks and replaced our monetary system with a permanent insurance company known as the FDIC that was to "insure" that the Federal Reserve

would keep printing more of their “dollars.” A free market was **now only as free as the FDA would allow**, and if you don’t pay them to regulate your distribution of goods, then they will deprive you of your property, your liberty, and even your life should an individual refuse to surrender their yields or right to manage their own farm - a strategy **outlined openly in the 4th and 6th planks of the communist manifesto!**

The nationalization of communication was clearly outlined as the 6th plank of communism in the communist manifesto from 1848. This is used so that people won’t publicly question the justification for the ultimate implementation of the 8th plank which demands that **all people must be equally obliged to work**. This applies when men are taxed at increasing rates with growing inflation which forces both men and women to work to pay their endless and increasing debt for existence by design or they will be deemed a “parasite” or “menace to society.” The only real parasites are those who would take a job just to vampirically leech the lifeblood and profits from a functioning business and economic structure which obliges nobody to work except the people who volunteer to be their workers.

Similarly to William McKinley, John F. Kennedy had signed an order to keep the nation’s dollar fixed to silver before he was assassinated. 2 years after his murder, the Coinage Act of 1965 was passed and forced western mining states to sell their silver for \$1.25 per troy ounce to eastern bureaucrats and bankers who now rule the printing of our money. This act stopped the minting of silver coin after 1970, and in 1971 the gold was also removed from the dollar

by Richard Nixon meaning that gold could no longer be redeemed for Federal Reserve bank notes which are mistakenly referred to as Federal Reserve “dollars.” Nixon is responsible for **the creation of the ATF** which has been used to wage war against our own innocent citizens simply for owning weapons for self-defense, brewing alcohol, or distributing tobacco – all timeless traditions of free Americans! They use what’s known as the GCA (Gun Control Act of 1968) for this purpose. “Waco - A New Revelation” is a documentary which clearly evaluates the actions of the ATF which are exercised against it’s own citizens. Along with ordering that tons of explosives be dropped on the people of Cambodia to annihilate their country as the citizens were being massacred by their psychopathic dictator, Pol Pot, Nixon also established the paramilitary organization known as **the DEA to wage war in every continent** for 55 years now in order to enforce what we call the CSA (Controlled Substance Act). This is an extension of the FDA’s stated purpose and is to further their ultimate function.

Since the “War on Drugs” was officially declared in the early 1970s, the **U.S. prison population has skyrocketed over 800%** of what it was in the 1960s per 100,000 citizens, and the value of our dollar has subsequently decreased by over 8 times since 1960. This is largely in consequence of the resulting inflation. 1 quarter in 1970 bought more than \$1.60 in 2018. 1 quarter in 1960 bought more than \$2.10 in 2018. The jails are overflowing right and left from Atlantic to Pacific and taxpayers are being told that the only thing that we can do is pay more tax to allow for the expansion and construction of more prisons and to pay the extra jailers that are will be

necessary for the job. The elites know that until Americans wake up to the real nature of their economic system and graduated tax structure there is nothing that Americans can do. Until Americans start to peek behind the curtain of illusion that is constructed around them, they will believe that freedom is slavery, theft is sharing, and ultimately, that death is life. In simple terms, our freedoms have been stolen from us before our eyes under the guise of “security,” “health” and “safety,” terms that sound nice, but are nothing more than soft poetry to ease you into absolute servitude and total indebtedness.

The 10th plank of communism is outlined as “free education” which everyone is forced to pay for as their kids are trained to accept absolute authoritarianism at the price of losing all their liberty and that which belongs to their children as outlined in the bill of rights! The education that we’ve been force-fed by the richest monopolists on Earth was purposefully used to keep children from becoming engineers, doctors, lawyers, or leaders of their own free individual lives. It was designed for little more than to produce entire generations of complacent, passive, docile and obedient people who would never question the orders that they’re given. John D. Rockefeller, the primary sponsor of the **GEB (General Education Board) which was founded in 1902, the year after William McKinley’s assassination**, had a son named David Rockefeller. In his memoirs he made the following claim: “Some even believe we are part of a secret cabal working against the best interests of the United States, characterizing my family and me as “internationalists” and of conspiring with others around the world to build a more integrated global political

and economic structure - One world, if you will. If that's the charge, I stand guilty, and I am proud of it."

In 1913, the same year the Rockefeller Foundation was officially formed and the 2nd and 5th plank of communism was enforced upon the American people, chairman of the GEB, Frederick T. Gates, wrote a historical text titled "The Country School of To-Morrow." In this historical publication written by the most prominent leader of our compulsory "education" system during the beginning of the implementation of the 10th plank of communism in America, the chairman outlined the purpose for the "free" education system as follows: **"In our dream, we have limitless resources, and the people yield themselves with perfect docility to our molding hand."** It goes on to say **"We shall not try to make these people or any of their children into philosophers or men of learning or of science. We are not to raise up from among them authors, orators, poets, or men of letters. We shall not search for embryo great artists, painters, musicians. Nor will we cherish even the humbler ambition to raise up from among them lawyers, doctors, preachers, politicians, statesman, of whom we now have ample supply."**

The USDA and FDA are both responsible for the excessive food waste in this country. **40% of the food produced in the U.S. is going to waste** and an extremely large portion of that food is wasted because of regulations that are imposed on restaurants and grocery stores in the name of health and safety which restrict them from conveniently sharing excess food with the poor or elderly. This synthesizes an artificial

necessity for a socialist welfare system! There's enough food going to waste each day in the U.S. to feed everybody in the nation. Grocery stores and restaurants should never have to fear being sued or shut down by the FDA or USDA for distributing food which is going to waste. This is a very important issue because if these types of problems are eliminated then we wouldn't have the need for welfare that we do today, if any. Together, we have every ability to return our nation to a state of true freedom and prosperity!

The “war on drugs” and the stranglehold on the people's food and drug market escalated around 1930 when the FBN (Federal Bureau of Narcotics) was created as an agency of the U.S. Department of the Treasury. The film “Reefer Madness” from 1936 perpetuated the demand for government intervention in “every state in the union” to end trafficking of cannabis, but by 1942 **the movie “Hemp for Victory” was released by the USDA to encourage mass hemp production.** The goal was 300,000 acres by 1943 to make cordage for ships, parachutes and other gear for soldiers in WW2. With drug addiction as high as it ever was, the “war on drugs” has been an absolute failure if the objective was anything other than to subject the entire human race under the boot of authoritarianism at the cost of millions of lives destroyed. *The violence perpetuated by drug cartels would never exist in our country if we had a free and open market. This war on flowers has gone on for almost a century and we are no closer to eradicating addiction than we ever were, but we've destroyed countless lives in the endless fight to regulate people's food and drug market. With drug abuse as prominent as it ever was, to keep fighting this endless war after over half a*

century is clinically insane. For voters to continue allowing a paramilitary force to intervene in our most basic daily transactions is to follow a path to assured doom for a free civilization. To strictly regulate production and manufacturing in itself is an idea that is against the principles of America.

The 10th amendment of the U.S. Constitution states clearly that **powers not prohibited by the Constitution are reserved to the states or to the people.** The 5th amendment says that citizens aren't to be deprived of their property without due process of law, and the 9th amendment says that the enumeration in the Constitution can't be construed to deny people of the rights retained by the Constitution. The 10th commandment of the Holy Bible says "thou shall not covet thy neighbor's house nor any thing that is thy neighbor's." It didn't say "except in cases of when searching for precious resins or jewelry to seize!" *It's no coincidence that the 10th commandment and the 10th amendment both justify an individual to tend their own garden however they believe is appropriate and to distribute food and medicine freely. The "war on drugs" has been used to directly enforce the 4th plank of communism outlined in chapter 2 of the communist manifesto from 1848.* The propagandist that hosted "Reefer Madness" was a foreign-born socialist, and the Nazi movement was becoming popular in the United States at the time of it's release! The only purpose for our American government is to provide for the common defense of liberty, prosperity and peace. It's not to destroy American families with violence as we covet the homes of our neighbors and community members to monopolize every industry under state control. Violent intervention is unjustified

when the targeted “offenders” they target haven’t committed theft, vandalism or violence of any kind.

The answers to these endlessly complicated problems are actually extremely simple! **I-1588** could legally prohibit the federal government from exercising any authority within our state by providing that **“the cultivation, possession, consumption, distribution or fermentation of any plant, fungi, or cacti in it’s holistic, processed or fermented form shall be permitted in all cases without taxation or mandatory license.”** This can be added to Washington’s legislation, but would easily be converted into an opposite law if it is not properly amended into our state’s Constitution. It should be amended as Section 36 of Article 1 which is known as our **“DECLARATION OF RIGHTS.”** It can be titled **“PLANTS, FUNGI, CACTI AND BIPRODUCTS”** or, simply, **“FOOD AND DRUG.”** **This act is 100% legal** according to the **10th amendment** of the U.S. Constitution, also known as Article 1, Section 2 of our state’s Constitution! Agencies which would attempt to violate our supreme laws will have no legal jurisdiction in our courts based on the 10th amendment and can be punished for violating our state’s right!

The Constitution of the U.S. starts with the words **“We The People”** and many states allow their Constitution to be amended directly by the voters through the initiative process which is protected by the 1st amendment of the U.S. Constitution, or Article 1, Section 4 of the Washington State Constitution! The only other way to amend our Constitution is to obtain two thirds of both the house and senate of our state to vote for the amendment, which will then require a

majority vote from citizens to become law regardless! The answer is truly that simple! It's a matter of voting for representatives who will represent our people for this pursuit of freedom which could **slash our overcrowded prison population by over 70%! For this to happen would require public consciousness to evolve to a state where we can ask ourselves basic questions like: why should we violate the Holy Bible's 10th commandment, The U.S. Constitution's 5th and 10th amendment, and basic logic by waging war on root bound life forms that can't speak or move? Why must we sacrifice these values by enforcing the 4th plank of communism upon our people under the guise of "felony disenfranchisement" which we use against those guilty of countless non-violent "crimes?" *Why must we cause so many to suffer around the world and in our own land for so long in this insane pursuit to rid our species of a plague that has always truly been within ourselves?***

The Libertarian movement is organizing to restore a sustainable monetary policy and to end the war on the free trade of food and medicine. In Ron Paul's words it is to "return the nation to its proper republican origins." Being a "Democratic Republican" or a "Liberal Conservative" promotes much needed unity among a divided class of people and is based on the ideals of the original revolutionary party which fought for succession from monarchy before the civil war. This middle ground is the purpose for the Party. It is an achievable and foreseeable way to **return power to the common people of our states** and overcome the illusions that divide us and leave us vulnerable to being conquered by design.

Fort Moultrie 1776
