

We have to demand that the regulators use their powers to ensure that there is not an artificial shortage of medicine to treat the most vulnerable who inevitably contract the COVID-19 Coronavirus! They are artificially manufacturing a horrifically destructive crisis by refusing to do so, and it's time to send a message to our government. We can not allow our judicial system to be suspended and the right of trial by jury as well as the right of people to petition the government for a redress of grievances and the right of candidates to campaign against the present rulers by banning assemblies. They have rejected our right to democracy by denying the vote of the people in November of 2019 regarding Initiative 976, and are illegally forcing citizens to pay fees that both republicans and democrats voted to reject. They have even attempted to deny all citizens of their second amendment right to purchase arms for the defense of themselves and their families as a response to the artificially manufactured crisis.

The right to assemble is meant for people of every gender, ethnicity, religion, class, age and political affiliation. It is not a discriminatory law. It is the most important protection for citizens that must be preserved because without it all other constitutional protections are inevitably lost. It is vital for the preservation of our freedom, our wealth and our lives. Protests are erupting in China and soon throughout Europe as a means of civil resistance against the emerging threat of a global tyranny. The first amendment has been the supreme law of the United States since the year 1791 and includes that the freedom to peacefully assemble shall not be abridged, denied or disparaged from the citizens of the United States. We can not LEGALLY be arrested for assembling. If we don't USE our rights then we will LOSE our rights.

Medicines such as Remdesivir have been used by clinicians in Washington State hospitals to effectively treat elderly patients who have contracted COVID-19! Instead of focusing on production & distribution of the medicine, our politicians focus only on isolating and separating people and shutting down their businesses. All the while, people are still transacting currency which is not sterilized, rendering the entire shut down useless as everyone touches money and money touches everyone. On April 2nd, Governor Jay Inslee extended the lockdown. We are told that it will be reevaluated in the last month of spring and if the death tolls don't go down then he has suggested a Wuhan style lockdown of society.

Without doing everything in our power to make sure that the medicine is produced and distributed to all the hospitals in the necessary amounts, the death rate is guaranteed to rise and the orchestrated lockdown of our economy and our people is guaranteed to continue until a point of absolutely no return. The only emergency is the lack of production and distribution of medicine to treat COVID-19 because regulators and bureaucrats have lied to the American people that there is no medicine proven to work when our hospitals in Washington have been using Remdesivir to treat the virus.

The United Nations has plotted a global takeover of sovereign nations since 1946, and as of the end of 2019, their leadership has been transferred to China. We know that China has lied astronomically about their numbers of deceased from infection. It is now understood internationally that death by COVID-19 in China has been exponentially higher than what they've reported. Total lockdown did not save lives in China, nor has it saved lives in Italy. It did, however, allow a brand new level of control over their people. The Chinese, including doctors, have been censored about the virus by their central communist party since the outbreak began. Europeans and people in the United States are also being censored by major internet conglomerates like Google which is now ran by China.
